

DON QUIXOTE'S DREAM

©Tim Harrison and Second Avenue Songs

I have fought with giants in the wind
And I have taken on the devil's sin
I have tried to heal myself in the inns of the nation
I have seen the truth of this country's situation

Chorus:

Sancho Panza sing your song
We've been traveling all night long
Rocinante's stumbled and has fallen to the ground
How is it these miseries have taken over town
Sancho help me up so I can battle more round

I have trod the fields searching for my love
I have seen Dulcinea lit from above
I will protect her from the wind and the rain
Even though she does not know my name

Sancho Panza sing your song
We've been traveling all night long
Rocinante's stumbled and has fallen to the ground
How is it these miseries have taken over town
Sancho help me up so I can battle more round

And I will travel all this country o'er
To try to right the wrongs we've all seen before
But there are always swords and always shields
There are always black crows flying in the fields

Sancho Panza sing your song
We've been traveling all night long
Rocinante's stumbled and has fallen to the ground
How is it these miseries have taken over town
Sancho help me up so I can battle more round
