

Your Love Brings Me Around

©Tim Harrison and Second Avenue Songs 1985

It doesn't matter how far down I go
It doesn't matter if I fall
It doesn't matter if they cast their stones
When I'm up against the wall

'cause you found me in the darkness
You found me all alone
You found me with no story
And then you took me home

And it's your love that brings me around,
It's your love brings me around,
It's your love brings me around.

You heard me screaming through the long nights
I thought for sure you'd put me down
But instead you held me closer
Then took me to a higher ground

And when hot tears came to my eyes
And all my worlds did collide
It's then I knew that you were with me
Always upright by my side

And it's your love that brings me around...

Bridge:

I thought for sure that I was stranded in the night
That I would never see the day
I thought for sure that I should just give up the fight
I nearly threw it all away
