

Chickadee Tangle

At Chickadee Tangle
You choose your angle
You perch and preen and dip and dive
Mostly just tryin' to stay alive

At Chickadee Tangle
You must finagle
All the best places so you can see
And all of the safest places for you to be

Then one day when the hawk flies through
It's hard on me and it's hard on you
You freeze in place, you never breathe
And never a peep until they leave

At Chickadee Tangle
You choose your angle
Then one day a love comes by
You bill and coo and away you fly

Then one day a love comes by
You dip and dive and away you fly
