

Love In The Time Of Covid
©Tim Harrison and Second Avenue Songs

I don't go out for coffee
Not goin' out to hear my friends
Stayin' home and watchin' movies
Some even right up to the end

One night I got a letter
From someone way out west
She asked me how's it goin'
I said I'm doin' my best

So we wrote and told our stories
And we lost count of the days
Then called when we were ready
And we hung on to every phrase

CHORUS:

And it was love in the strangest of times
Like nothing that would ever come to mind
But something that I surely recognized
As something I'd been always trying to find

And each call it got deeper
And each call got more real
Then the fantasy it ended
While fortune took the wheel

And so we made a pact to be together
To tuck into each other's hearts
To travel light and leave no foot print
And to never be apart

BRIDGE:

And yes I guess we took some chances
And better minds might think to stay away
But people will have their romances
And you know that always takes the day
