

## Rocket Radio

©Tim Harrison and Second Avenue Songs

You jump into bed, and turn the lights down low  
you plug in the wire to the radio  
And you twist and turn tryin' to make some ground  
And you work so hard tryin to find that sound

And you search and search, through the static hum  
And you really don't know, just how it comes  
But you hear the beat, and the bass comes through  
And you close your eyes, and it swallows you

Rocket Radio, take me to the stars  
Rocket Radio, man you can travel far  
Rocket Radio, Yes you can really go  
Rocket Radio, right down to your soul

Well it's Wilson Pickett, and it's Sam and Dave  
Just one more song and we'll all be saved  
It's "I Get Around" and "Pretty Woman" too  
"You Were On My Mind" and "She Loves You"  
Yeah, yeah, yeah yeah

Rocket Radio, take me to the stars  
Rocket Radio, man you can travel far  
Rocket Radio, Yes you can really go  
Rocket Radio, right down to your soul
